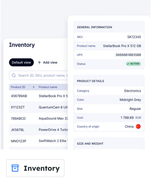
Follow and manage orders from origin to end customer

Use one user-friendly platform to track shipments, manage orders, and consolidate inventory, allowing your team to work more efficiently with better visibility of your entire supply chain.



Inventory

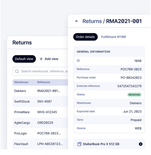
Consolidate all your inventory

Integrate with WMSs for one overview of all inventory across multiple locations.

Orders

Bring your order sources together

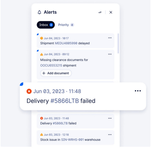
Automate order management processes and reduce time-consuming manual tasks.



Returns

Handle all returns centrally

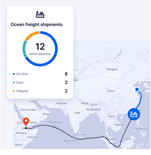
Leverage your network of warehouse partners to create an international returns network.



Last mile

Follow orders to the customer door

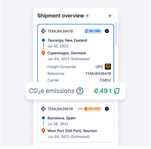
Integrate your final-mile partners for visibility from the warehouse to the end customer.



Air & Ocean Tracking

Leverage AI-powered tracking

Track air and ocean shipments by PO/SKU, airway bill or container number.



CO_2

Get best-in-class CO_2 reporting

Measure and calculate carbon emissions throughout the supply chain.

6-10% of annual revenue is lost due to supply chain disruptions

51% of companies are simplifying the management of their supply chains.

The Economist

56% of large companies said that end-to-end visibility was among their top priorities.

THOMSON REUTERS

Companies are tired of fragmented systems, spreadsheets and a lack of visibility in their supply chain. Moddule gives them the **control and connectivity they need, with end-to-end visibility from supplier to consumer.**

Hans Elmegaard
CEO, Moddule

All the connectivity you need, on one platform

Plug and play integrations for quick and seamless connection with your online sales channels, ERP, accounting and shipping software, and more.

Connect into various platforms using API or webhook technology to enable smooth data exchange and automation.

Hundreds of carrier integrations

Leverage our extensive coverage of 120+ ocean freight carriers and 170+ airlines and get a unified view of your shipments, regardless of carrier.

Technology partners

Tap into our integrations with the most popular order systems, online marketplaces, returns networks and last mile providers.

Warehouse integrations

Integrate with your warehouse WMS to bring all your data into a single platform. More than one warehouse? Even better.

Ecco Logo

"Moddule's platform offers us a **straightforward integration between our Global ERP and local fulfillment services** to support our growth."

Birthe D.
Logistics and Distribution Manager,
Ecco Shoes Pacific
